

STATE of WISCONSIN

OFFICE of the GOVERNOR

Proclamation

WHEREAS; according to the Centers for Disease Control and Prevention, falls are the leading cause of injury-related death among older adults in the United States, with more than a quarter of adults aged 65 and older falling at least once a year; and

WHEREAS; falls in Wisconsin cost an estimated \$1 billion a year, in addition to the emotional and physical costs to older adults, their families, and their caregivers; and

WHEREAS; according to the Wisconsin Department of Health Services (DHS), emergency medical services providers responded to over 130,000 older adult falls across the state in 2022, making falls the top injury response; and

WHEREAS; conditions including bodily weakness, difficulty walking and balancing, vision problems, foot pain, and motion-affecting medication can all increase the likelihood of a fall, and at-risk older adults should take care to remove potential hazards that may contribute to increased falls; and

WHEREAS; in response to a fear of falling, older adults may limit their social engagements and activities, which can lead to physical decline, depression, social isolation, and feelings of helplessness; and

WHEREAS; while falls are often viewed as an unavoidable part of aging, research indicates that falls are not inevitable, and people at any age can learn and carry out effective strategies to reduce their fall risk, increase physical activity and mobility, and improve overall physical and mental wellness; and

WHEREAS; together with DHS, the statewide Falls Free® Wisconsin Coalition, local fall prevention coalitions, aging and disability resource centers and offices, community-based organizations, health systems, and public safety organizations, strive to raise awareness of and support fall prevention initiatives and evidence-based programs like Stepping On; and
